WAVERLEY HILLS

WINE OF SOUTH AFRICA

CABERNET SAUVIGNON

MERLOT

2007

The vineyards are pampered by crystal pure waters and virgin soils with cool south-easterly winds, which produce organic grapes of the highest standard.

Bright red edge with a deep ruby centre. Wine show aromas of black cherry, black currant, mint and chocolate, with hints of toastiness from the barrels in the form of nutmeg and sandalwood. Pallet shows all the same fruit flavours with silky soft ripe tannins. Hints of chocolate, ripe fruit, and mocha coffee from the barrels create a well balanced and structured wine. This wine will age well. Very adaptable, this wine can be enjoyed at a light lunch or compliment a hearty lunch or dinner.

Wine made from organic grapes is produced from grapes grown in natural healthy conditions. Special care has been taken in the wine-making process to ensure quality retention and a healthy result.
